SUPPLEMENT TO
REPORT NO.

1. The attached table shows the total production in the Soviet Zone of Germany, exclusive of the Soviet AGs, for the month of October for the principal branches of industry. The figures in column 2 refer to production in factories of the publicly owned enterprises under direct control of the DWK, while column 3 gives the production in publicly owned enterprises below the zonal level.
2. The production figure is the actual total production, including contracted repair work. Processing work (Lohnaufträge) is not included, except in the food industry.
3. The production totals have been calculated in the same manner as in previous months. The monthly total for October is somewhat higher than that for September; however, nearly all the increase is ~~in the food industry.~~
